Excellence Stainless Steel

The pan is a great heat conductor and the base is induction ready. Reinforced non-drip edge and annular welded unbreakable watertight handles make this one of the cleanest and strongest stainless steel pans made.

Top Features:

- Special stainless steel body.
- Sandwich aluminum base bottom with shape memory.
- Perfect flatness during cooking.
- Suitable for all heat sources like gas, electric, radiant and induction.
- "Stay Cool" Handles are insulated to prevent heat diffusing.

High Performance Non-Stick

This high performance coating consists of a ceramic undercoat reinforced with titanium which is then layered with a non stick coating, fused to the bottom and sides of the pan. They are built to last twenty times the life of ordinary non-stick coatings. The pan has a 6mm thick pressure cast aluminum base for perfect heat diffusion. The traditional french cast iron handle is comfortable to use and fixed with heavy duty teflon coated rivets.
